

VINAY B

DevOps Engineer | Platform Engineering | SRE | MLOps | AIOps

vinaybkrishna10@gmail.com · +91 8660953284 · Bengaluru, India · github.com/Vinaycicdops · linkedin.com/in/vinaybkrishna

PROFESSIONAL SUMMARY

AIOps-driven DevOps Engineer with 3.5+ years of experience in automating, managing, and scaling high-traffic cloud infrastructure. Specialized in **Kubernetes (EKS at 25k+ RPS)** and leveraging **AI/ML techniques** to enhance operational intelligence, anomaly detection, and intelligent incident management. Proven track record of maintaining **99.99% uptime** and implementing secure, scalable CI/CD pipelines and Infrastructure as Code (IaC) to ensure system resilience and efficiency.

TECHNICAL SKILLS

AIOps & AI/ML	Anomaly Detection (Isolation Forest, LSTM), Predictive Analytics, Kubeflow Pipelines, MLflow, DVC, Evidently AI, SageMaker, Python (Expert)
Kubernetes & Cloud	EKS, GKE, AWS, GCP, Azure, Helm, Kustomize, ArgoCD, Istio, HPA/VPA
Automation & IaC	Terraform, Ansible, Vault, GitHub Actions, GitLab CI, Jenkins, Git
Observability	Prometheus, Grafana, ELK Stack, Loki, Datadog AI, SLI/SLO Design
Security & Compliance	Trivy, SonarQube, Infracost, IAM, KMS, DevSecOps
OS & Networking	Linux (Expert), TCP/IP, DNS, ALB/NLB, Security Groups

PROFESSIONAL EXPERIENCE

DevOps Engineer | Volt Security Pvt Ltd - Bengaluru, India Dec 2023 – Jan 2026

- Designed, implemented, and maintained highly available **EKS clusters** achieving **99.99% uptime** for 8 critical microservices handling **25k+ requests per second**.
- AIOps & Operational Intelligence:** Built and optimized AIOps solutions for predictive analytics and anomaly detection, reducing false positives and accelerating incident resolution.
- Developed automated **CI/CD pipelines** using Helm and GitHub Actions/GitLab CI, reducing deployment times by **40%**.
- Implemented **Infrastructure as Code (IaC)** using Terraform and Ansible; reduced cloud infrastructure provisioning time from days to **under 10 minutes**.
- Collaborated with development and QA teams to troubleshoot complex issues and optimize application performance in a distributed environment.
- Consistent **20% cloud cost reduction** through automated resource allocation and optimization.
- Implemented security best practices and compliance standards (Least-privilege IAM, KMS, Trivy) across deployment pipelines.

Software Engineer | Cognitive Clouds - Bengaluru, India Jan 2021 – Aug 2022

- Built and maintained CI/CD pipelines with GitHub Actions, **reducing release cycle time by 20%**.
- Engineered multi-stage Dockerfiles **reducing image sizes by ~60%** and improving build speeds.
- Managed version control and deployment workflows in an **Agile/Scrum environment**.

INDEPENDENT PROJECT

Dual-Engine MLOps + AIOps Platform Jan 2024 – Present
github.com/Vinaycicdops/project_1

- Built an ensemble detector (Isolation Forest + LSTM) monitoring 8+ production metrics; **detects anomalies within 30–40 seconds**.
- Integrated drift detection (Evidently AI) with FastAPI webhooks to auto-trigger model retraining, ensuring continuous operational intelligence.
- Collaborated on integrating AI models into operational workflows to provide automated insights and intelligent decision-making.

EDUCATION

B.E. Computer Science — KSSEM, Bengaluru 2015 – 2019
